

# ASEAN Photovoltaic Energy Storage

## Overview

---

When is ASEAN solar PV & energy storage Expo 2025?

We are delighted to announce that the much-awaited ASEAN (Bangkok) Solar PV & Energy Storage Expo 2025 is scheduled to take place on March 5-7 in Thailand. This premier event is dedicated to showcasing the latest advancements in solar photovoltaic technology and energy storage solutions from across the ASEAN region and beyond.

Why should you attend ASEAN solar PV & energy storage Expo?

With a focus on sustainable development and renewable energy, the expo provides an excellent platform for networking, learning, and showcasing innovative solutions. [ASEAN Solar PV & Energy Storage Marketing info.](#)

How can ASEAN promote solar energy?

1\Government support: Many ASEAN countries have launched initiatives to promote the use of solar energy and reduce dependence on fossil fuels. For instance, the Philippines has set a target of installing 13 gigawatts (GW) of solar power by 2030, while Indonesia has a goal of generating 23% of its electricity from renewable sources by 2025.

Should ASEAN have a power grid?

The idea for an Asean power grid traces back to 1997, under the Asean Vision 2020 blueprint. The bloc's members identified the interconnections of the national electricity networks as a way to strengthen energy security and economic integration. But it has been slow to take off.

Is ASEAN the future of energy?

Asean is expected to account for 25 per cent of global energy demand growth over the next decade, according to the International Energy Agency. By 2050, the region's energy demand is set to overtake the European Union. For importers like Singapore, the APG offers not just energy security, but a

pathway to net zero by 2050.
