

Africa Portable AC DC Power Supply

Overview

Do I need a DC power supply?

Some appliances may need to convert AC mains electricity to a DC power supply. In addition, these suppliers may also need to lower the input voltage. All of our AC/DC power supply devices provide fantastic performance and reliability, and are all revered for their effectiveness.

Who are the best AC/DC power suppliers?

At Power Solutions we supply a wide range of AC/DC power suppliers from high quality, globally recognised brands such as Mean Well, Pils, Archcorp, Kerio, Sunpower and Eltek. Browse through our extensive range of AC/DC power suppliers in our online catalogue.

What outputs does the Power Pack DC40 have?

Several outputs are provided including 4 x QuickCharge USB ports, standard 12V automotive sockets and 50A heavy-duty couplers. The Power Pack DC40 can be charged from a vehicle alternator, solar panels, DC source such as wind generator or AC-DC power supply as well as external battery chargers.

Which external power supplies are available?

These external switching power supplies are available with a choice of IEC320-C14, C8 or C6 AC input receptical and many meet with the requirements of EnergyStar and the new ErP directive 2009/125/EC. Mean Well's AC/DC Single Output External Power Supplies range all the way up to 220 Watts.

What is the output voltage of a power supply system?

Input 100-264Vac, 50-60Hz, 80W output, output Voltage from 0 to 36.8V, output Current from 0 to 5A. Compact high efficiency power supply systems. The rectifier is the core of any Power Supply Unit. Eltek's power solutions will secure continuous, safe and efficient operation of your business-critical

applications.
