

Albania Energy Storage Cooperation Project

Overview

Could a gigawatt power plant be in Albania?

Masdar and state-owned power utility KESH signed a joint venture term sheet agreement to explore the development of gigawatt-scale projects in Albania. The renewable electricity plants, potentially with storage, would supply power to the country and its neighbors.

Why should Albania invest in sustainable infrastructure?

Caption: Sustainable infrastructure offers great potential for Albania to harness clean energy and energy efficiency, create jobs and boost economic growth. The energy and infrastructure sector is often the economic engine driving a country's journey towards sustainable and inclusive development.

Are Masdar and Kesh developing gigawatt-scale green energy projects in Albania?

Masdar and state-owned power utility KESH are exploring the development of gigawatt-scale green energy projects in Albania.

Will Albania and Italy join forces to install an undersea power interconnection?

Prime Minister Edi Rama earlier said the two countries are looking to join forces with Italy to install an undersea power interconnection between Albania and Italy. The project is valued at EUR 1 billion. The company is working on a similar joint venture with Romania's Hidroelectrica.

Does Albania have a joint venture with the UAE?

So far only the photovoltaic segment has shown solid growth. Albania hosts the largest solar power plant in the Western Balkans – Karavasta. The new joint venture term sheet is a crucial component of the broader strategic partnership between the UAE and Albania, Masdar underscored.

Where can I find information about the UN's work in Albania?

For more information about the UN's work in Albania, please visit albania.un.org. The energy and infrastructure sector is often the economic engine driving a country's journey towards sustainable and inclusive development. For Albania, investing in and expanding sustainable energy and resilient infrastructure is key to its long-term vision.
