

# **BESS price of photovoltaic panels for villas in the Middle East**

## Overview

---

What is the competitive landscape of solar photovoltaic market?

The competitive landscape of this market depicts a market share dominated by solar photovoltaic manufacturers which hold a superior position in the global market. The competitive landscape which has well-established supply chains with preference from customers dominated the market in the Middle East too.

Are photovoltaic modules learning behavior typical of mass-produced goods?

The steady year-on-year declines in CapEx and LCOE suggest learning behavior typical of mass-produced goods. Learning curve analysis has proven effective at projecting the price evolution of photovoltaic module manufacturing in a way that bottom-up analysis has not and is increasingly being extended to system-level analysis.

Are rooftop photovoltaic panels becoming more popular?

There has been a strong surge in domestic installation of rooftop photovoltaic panels in larger cities. For projects under 1 MW, net metering regulations came into effect in September 2015. The government is targeting at least 1 million customers and adding approximately 3,000 MW of solar power through net metering.
