

# **Belgian photovoltaic energy storage company**

## Overview

---

Where is the battery energy storage project located in Belgium?

Once completed, the four-hour battery energy storage project will operate under a 15-year contract with Elia, Belgium's electricity grid operator, and be located next to Engie's gas power plant in Vilvoorde. From pv magazine ESS News site.

How can Giga storage help facilitate the nuclear phase-out in Belgium?

Our ambition is to help facilitate the nuclear phase-out by achieving 2025 GW of battery storage in Belgium before 2030. GIGA Storage specializes in large-scale energy storage, investing in projects for optimizing energy supply and ensuring grid stability.

What is the solar energy industry like in Belgium?

The solar energy industry in Belgium is rapidly evolving, driven by the increasing demand for sustainable energy solutions. With a commitment to reducing carbon emissions, companies here focus on innovation to harness solar power effectively.

Will Engie be able to build a new battery plant in Belgium?

Engie described this as "a double success within the CRM framework," which ensures a future for its site in Belgium. The Vilvoorde BESS project will be launched in two phases, with the commissioning of 100 MW of batteries in September 2025, and a further 100 MW in January 2026.

How many MWp does 7C solarparken have in Belgium?

The company has established a portfolio that includes 42 MWP capacity in Belgium, showcasing its ability to execute projects effectively. Their operations are supported by a strong foundation of expertise gained from their parent company, 7C Solarparken AG, which has a broader portfolio of 420 MWP across Europe.
