What is a battery energy storage system?

Battery Energy Storage Systems (BESS) are crucial for the energy transition, providing flexibility and stability to the grid. They store energy from renewable sources like solar and wind, and release it when needed, helping to balance supply and demand. In the UK we are due to energise our first two UK batteries, based in Scotland, in spring 2025.

Who is Home Energy Group Ltd?

Home Energy Group Ltd is a UK-based company specialising in renewable energy solutions, particularly focused on solar panel installations and battery storage systems. Established in 2012 and headquartered in Keighley, West Yorkshire, we offer a range of products and services designed to help customers reduce their energy bills and carbon footprint.

What are the best solar energy storage systems?

Battery Storage Systems: Home Energy Group offers advanced battery storage solutions like the Lux Power and Hanchu systems. These allow users to store excess solar energy generated during the day for use during the night or when sunlight is insufficient. This reduces reliance on the national grid and protects against energy price hikes.
