Overview

Do you sell used or refurbished solar products?

We do not sell any used or refurbished items. Orders over \$500 include a FREE (Normally \$149.99) 80-Page DIY Solar eBook — added automatically at checkout. Upgrade your energy system with the Sol-Ark 15K All-In-One Hybrid Solar Inverter — a pre-wired, plug-and-play solution designed for off-grid, on-grid, and hybrid solar applications.

How does a solar energy system work?

From sunrise, the system captures solar energy and delivers it directly to your home through its grid-tied output. Surplus energy is automatically stored for use during peak hours, at night, or in the event of a short-term outage.

Are DIY solar panels UL certified?

Connect some batteries and solar panels, change the settings, and you are done. The DIY battery community has used these units 24/7 for years! They are extremely dependable. As of 2021, they are now UL certified! This means that the components inside the units are high quality.

Do I need a combiner box for a solar array?

If you plan to connect a large solar array, you will probably need to put your panels in parallel to keep the voltage down. When you have more than 2 strings of panels in parallel, you need over current protection for each string. This is easily accomplished by using a combiner box. They are available below.
