

# **Chad 220v lithium iron phosphate outdoor battery cabinet**

## Overview

---

What kind of batteries can be stored in a rack mount cabinet?

All-in-one design, store the leading brands of 19" rack mount type lithium batteries, inverters and controllers. DC48V powered air conditioner, heat exchanger or TEC coolers are optional, which can cool down the devices installed inside the cabinet. Battery Storage Space based on the battery specification.

What is a medium series battery energy storage system?

The medium series battery energy storage system is designed with versatility and scalability in mind. Featuring MPPT technology and leading-edge conversion equipment, these BESS systems are built to stand out thanks to their longevity, reliability, and customisability.

How many batteries are in a battery cabinet?

Each Battery cabinet contains two battery strings, each battery string contains total 26 battery modules connected in series. Each battery cabinet contains two HVAC system, and one set aerosol Fire Suppression System.

What is outdoor lithium ion battery enclosure?

Outdoor Lithium ion Battery Enclosure mainly provides a stable working temperature and dust-free environment for lithium battery, they are integrated with thermal insulation and equipped with air conditioner of different refrigerating capacity.

What is a battery cabinet made of?

The cabinets are made of galvanized steel or aluminium, making them easy to position and providing a long service life. A slide-in racking system allows for easy installation of 19" rackmount style battery modules along with rain protected vents on both sides and on top for passive ventilation.
