

Costa Rica Mobile 5G Base Station Project Distribution Cabinet

Overview

Who is deploying 5G in Costa Rica?

Liberty and Ericsson have signed a strategic contract to deploy the first 5G Standalone (5G SA) mobile service in Costa Rica, marking a milestone in the Digital Transformation of the country and the Central American region.

Will a 5G mobile service be available in Costa Rica?

Liberty and Ericsson have signed a strategic contract to deploy the first 5G standalone (5G SA) mobile service in Costa Rica, marking a milestone in the digitalization of the country and the Central American region by utilizing a fully 5G-native infrastructure without relying on 4G elements.

What does 5G Sa Mean for Costa Rica & Central America?

The deployment of the first 5G Standalone (5G SA) network in Costa Rica and Central America marks a transformative milestone, utilizing a fully 5G-native infrastructure without relying on 4G elements.

How will Liberty & Ericsson transform Costa Rica?

With this six-year strategic contract, Liberty and Ericsson demonstrate their commitment to the development of Costa Rica through its Digital Transformation process, paving the way for enhanced connectivity, increased network capacity and improved user experiences enabled by 5G technology.

How secure is 5G?

As 5G becomes vital for Digital Transformation, robust security is essential. Ericsson's approach covers standardization, product development, deployment and operations to ensure networks are safe and reliable. Partnering with trusted, secure suppliers like Ericsson is key to maximizing 5G benefits without risking safety or dependability.
