## Overview

---

Can Croatia become a regional leader in battery energy storage?

The participants agreed that Croatia has the potential to become a regional leader in the integration of renewable sources and battery energy storage, but this requires a rapid modernization of the transmission and distribution network, as well as legislative adjustments.

Did Croatia get the green light for IE-energy's massive energy storage project?

Croatia got the green light from Brussels for a EUR 19.8 million grant to IE-Energy for a massive energy storage project.

What power outlets does Croatia use?

If you're coming from an extended European sojourn then you needn't stress because the country uses the same power outlets as (almost) the rest of the Eurozone. Specifically, Croatia runs on type C and F plugs, although the outlets work with type E as well. You can see we have a picture here to help you visualize it.

Will ie-energy accelerate the decarbonization of Croatia's energy sector?

In addition, it will accelerate the decarbonization of the Croatian energy sector, according to the announcement. IE-Energy is based in Rijeka, Croatia's fourth-largest city. It joined the intraday and day-ahead markets at the Croatian Power Exchange (CROPEX) last year. Documents reveal the project is scheduled to start on December 1.

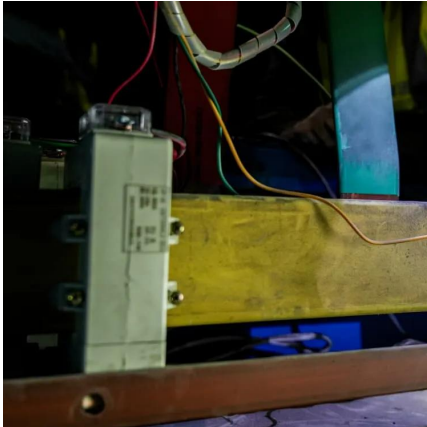

Will increasing battery storage capacity reduce electricity prices?

Maja Pokrovac, director of RES Croatia, highlighted that increasing battery storage capacity could reduce electricity prices by 25% by 2030, stressing the urgent need to accelerate the adoption of a regulatory framework that would enable faster development and deployment of new capacities.
