

Does Sri Lanka have 5G base stations for communication

Overview

Is Sri Lanka ready for 5G?

The island's largest mobile network operator said that with this successful 5G SA trial, Sri Lanka's connectivity provider further advanced the nation's 5G journey and would enable more advanced use cases that required 5G SA support.

What is required for initial 5G deployments in Sri Lanka?

Widespread 5G roll-outs in Sri Lanka will benefit from strong 4G foundations as initial 5G deployments using non-standalone access (NSA) require a 4G signal. Meanwhile, Hutch is working with the equipment manufacturer ZTE on developing the 5G platform and performed an inaugural 5G trial in March 2021.

Why is 4G important for 5G roll-outs in Sri Lanka?

Widespread 5G roll-outs in Sri Lanka will benefit from strong 4G foundations as initial 5G deployments using non-standalone access (NSA) require a 4G signal.

What is the 4G availability in Sri Lanka?

Our 4G users were, on average, connected to 4G services on all 4G networks in Sri Lanka for more than 70% of the time. Dialog and Mobitel share the 4G Availability award for the third time in a row, as Hutch hits the 70% milestone.

Will Sri Lanka benefit from a strong 5G Foundation?

Widespread 5G roll-outs in Sri Lanka will benefit from strong 4G foundations as initial 5G deployments using non-standalone access (NSA) require a 4G signal. Meanwhile, Hutch is working with the equipment manufacturer ZTE on developing the 5G platform and performed an inaugural 5G trial in March 2021.

How many Wi-Fi hotspots are available in Sri Lanka?

In Sri Lanka alone over 500,000 community Wi-Fi hotspots are available for customers. We are rolling out Software-Defined services, including SD-WAN, for enterprise customers which can provide flexible and economical connectivity.
