

# **Dual voltage high power inverter**

## Overview

---

What is a dual output solar inverter?

5 : Support OEM appearance, color, logo, parameters, package, etc. The dual output solar inverter, often referred to as the split-phase dual output inverter, is a remarkable innovation in the world of solar energy. This advanced inverter is designed to provide unmatched flexibility and adaptability in meeting diverse power requirements.

What is a Dual Inverter System?

A Dual Inverter System is a redundant and fault tolerant system that provides an optimal solution when continuous operation and long battery service life are required. It has a modular construction and fits in standard 19" racks and cabinets.

What is a solar power inverter?

This advanced inverter is designed to provide unmatched flexibility and adaptability in meeting diverse power requirements. The standout feature of this solar power inverter is its ability to generate dual distinct AC voltage outputs simultaneously, making it ideal for regions with mixed voltage standards.

What is xindun dual output inverter?

These solar exhibitions have provided a platform to demonstrate our state-of-the-art technology, including dual output inverters and off-grid solutions, tailored to meet the diverse energy needs of regions with varying voltage standards. Xindun dual output inverter, seamlessly generate 110V/220V and 120V/240V AC power simultaneously.

What is a high efficiency power inverter?

High efficiency power inverters which use a modified sine wave to power 230V mains equipment from a 24V battery • Designed to work with most modern

day lorries or marine power systems that run of a 24V alternator • Over 85% efficiency • Soft start minimise.

What is the output voltage of a pure sine wave inverter?

Input Voltage: 12V/24V/48VDC | Output Voltage: 110V/120V/220V/240VAC $\pm$ 2% | Efficiency:  $\geq$ 85% | Type: Off Grid Pure sine wave inverter dual voltage output 1 : Split-phase dual output L1-L2, L1-N, L2-N can be customized for customers in Central and South America. 2 : Support mains power, generator, solar energy to charge batteries.
