

ESS power base station inside the energy storage cabinet container

Overview

What is an ESS cabinet?

In addition to our Energy Container Solutions, this ESS cabinet offers a compact system in a robust outdoor housing as the ideal energy storage solution for a wide range of applications. Based on a lithium iron phosphate battery system, the ESS cabinet serves as a comprehensive complete solution for stationary energy storage.

What is ESS (Energy Storage System)?

The ESS (Energy Storage System) functionality gives peace of mind and reliability in times grid failure and off-grid applications. The products we sell must be installed by a qualified electrician/technician and must adhere to local wiring regulations and standards.

What is ESS & how does it work?

ESS was established in 2011 with a mission to accelerate decarbonization safely and sustainably through longer lasting energy storage. Using easy-to-source iron, salt, and water, ESS' iron flow technology enables energy security, reliability and resilience.

Does ESS support American energy dominance?

Built in the U.S. and supported by an American supply chain, the Energy Base is supporting American Energy Dominance. ESS' latest long-duration energy storage (LDES) solution is redefining energy storage, with industry-leading design and operational flexibility to cost-effectively meet customer needs.

Why should you choose ESS for Your Energy BASE project?

ESS has worked closely with leading engineering firms to develop standard, cost-effective design parameters that enable deployment of gigawatt-scale storage. Energy Base projects can be customized to minimize visual impact and deliver up to 300 MWh/acre energy density.

What makes ESS Energy base unique?

Each Energy Base project leverages ESS' proven core technologies to deliver the power, energy and layout customers need. Its modular architecture and the inherent safety of ESS iron flow technology enable compliance with safety regulations and community guidelines, providing peace of mind for all stakeholders involved.
