

El Salvador Energy-saving Solar System Application

Overview

We innovate with solar photovoltaic plant design, engineering, supply and construction services, contributing to the diversification of the energy matrix in our.

We provide operation and maintenance services (O&M) for solar photovoltaic plants. These services are provided by a team of world-class operators with support.

The AES Energy Storage platform provides a high-speed response to deliver energy to your system the moment it is required. This platform counts on advanced.

AES' Meanguera del Golfo solar plant—the first of its kind in Latin America—relies on enhanced solar-plus-battery storage technology to deliver uninterrupted, carbon-free electricity to isolated island communities and support economic growth in the Gulf of Fonseca region of El Salvador.
