

Estonian energy storage vehicle prices

Overview

Where is Estonia's largest battery storage facility located?

The flagship battery storage project commenced operations on February 1, only days before cutting ties with the Russian power grid. Estonian state-owned energy company Eesti Energia has inaugurated the nation's largest battery energy storage facility at the Auvere industrial complex in Ida-Viru County.

How much PV capacity does Estonia have?

According to Andres Meesak, CEO of Estonia's PV association, Estonia now has around 107 MW of cumulative installed PV capacity. This represents a significant increase from the 17 MW of cumulative capacity at the end of 2017.

How much does it cost to charge an EV in Estonia?

Each Estonian town, as well as bigger villages now have their own fast chargers; the stations installed along highways maintain a minimum distance of 40 to 60 km. The EV users have three service packages to choose from, the cost of one charging is between 2.5 and 5 euros.

What is Estonia's Auvere Bess project?

Estonia's Auvere BESS project is designed to participate in both the electricity exchange and other energy markets to ensure the security of electricity supply. According to Eesti Energia board member Kristjan Kuhi, the battery is able to respond very effectively to fluctuations in the power system.
