

Georgia 10kw home solar power system installation

Overview

How do I choose a solar power company in Georgia?

Look for a solar power company experienced in Georgia installations so that you have the most energy-efficient solar power system in place for your home. Many companies offer flexible financing options, including power purchasing agreements (PPAs), to lighten the financial burden of solar panel installation.

How much do solar panels cost in Georgia?

Solar panels will save you a lot of money over time, but the upfront costs aren't cheap. The average Georgia homeowner needs a 12.35 kW solar panel system to cover their electricity needs, which comes out to \$31,703 before incentives. Prices range from \$26,948 to \$36,458, but after the federal tax credit, that drops by 30%.

Is Georgia a good state to install solar panels?

With higher than average electricity prices and abundant sunshine, Georgia's a pretty great state for solar energy. It may not have the best local solar incentives, but as a Georgian, you can still take advantage of solar's most valuable incentive, the Federal Tax Credit. Here's what you should know about installing solar panels in the Peach State.

Does Georgia Power offer solar?

From home installation and our buy back program, to non-installation options, our goal is to make solar an option for every Georgia Power customer. Learn more about our behind-the-meter solar programs, including the new Renewable and Nonrenewable Resources (RNR) program, and how to interconnect your system.

Does Georgia have a solar tax credit?

Georgia does not offer a solar tax credit. The levelized cost of power from a

typical solar system installed on a home in Georgia over 25 years is 5.2 cents/kWh. The average cost of utility power over 25 years (if you don't get solar) is 20.4 cents/kWh.

Does Georgia pay taxes on solar installation?

The cost of installing renewable energy systems in Georgia, including solar, is supported by the federal solar investment tax credit. This tax credit amounts to 30% of the value of the solar system and is claimed on your taxes in the year following installation.
