

Georgia high-performance energy storage battery company

Overview

HSAGP Energy LLC is a major development in Georgia's industrial sector. This joint venture company between Hyundai Motor Group and SK On has established an electric vehicle battery cell manufacturer covering 26,136,000 square feet at 5059 HWY 411, Kingston, Georgia 30145. Will Georgia Power offer more battery energy storage projects?

In that filing, Georgia Power signaled its intention to solicit bids for more storage- another 500 MW- in the near future. Battery energy storage projects are popping up all over the U.S., which added nearly 4 GW of storage capacity in the second quarter of this year alone, according to a recent report.

When will Georgia's battery storage system come online?

The battery system is expected to come online as early as 2026 and is subject to regulatory approvals. "As we continue to build Georgia's clean energy future, battery storage systems play a vital role in how we will continue to serve our customers with clean, reliable energy for decades to come.

Why do Georgians need battery storage systems?

Battery storage systems part of plan to add renewable energy and help ensure reliability for Georgians
