

How much does it cost to install a battery cabinet in Northern Cyprus

Overview

Current pricing runs €800-1,000 per kWh installed – a 10kWh system totals €8,000-10,000 before grants. Government subsidies immediately reduce this by up to €5,000, bringing your actual investment to €3,000-5,000. Which simply means payback in 3-5 years at current electricity rates.
