

How much electricity does it take to pay back the cost of an outdoor power supply

Overview

How much does it cost to install an outdoor outlet?

Electricians charge \$50 to \$130 per hour for labor to install an outdoor outlet. Labor costs increase for difficult-to-access locations or if the electrician must run new wiring from the main electrical panel to the outlet's location. The following factors affect the cost for an electrician to install an outdoor outlet:

How much does grow light electricity cost?

The final determinant in calculating your grow light electricity cost is what you actually pay for energy in your home or facility. For example, our local residential electricity cost is \$0.1559 per kilowatt hour (kWh). How many lights are you running?

This factor will have a compounding effect on your energy bill.

How much does it cost to replace an electrical outlet?

The cost to replace an outdoor outlet is \$100 to \$175. Replacing an outlet takes only 10 to 15 minutes, but most electricians charge one-hour minimum rate plus a \$75 to \$125 trip fee. In comparison, indoor outlet replacement costs \$80 to \$200, depending on the type, voltage, amperage, and the distance from the home's main electrical panel.

How much does an outdoor outlet cover cost?

A cord plugged into an outdoor electrical outlet. An outdoor outlet cover costs \$0.50 to \$20.00, depending on the style and weather rating. The installation estimate for an outdoor outlet typically includes a watertight or weatherproof enclosure. Outdoor outlets directly exposed to the elements must have a watertight cover labeled "Extra-Duty".
