

## **Inverter 6090 to 220**

## Overview

---

What types of inverters are available?

We offer a variety of specifications and models of inverters to meet your power needs, whether for home, automotive, or travel purposes. The Leaptrend Sirius series 3000W 12V Pure Sine Wave Inverter is perfect for most off-grid systems, whether for a van, RVs, trucks, boats, yachts, coffee van inverter or any remote location needing power.

What is the rated power of an inverter?

The rated power of this inverter is 300W and the maximum power is 600W. High power and large appliances like air conditioners, refrigerators and washing machines are not suitable to be connected to this inverter. For high power or special demand devices, choose an inverter with a higher power rating or avoid using the inverter for power supply.

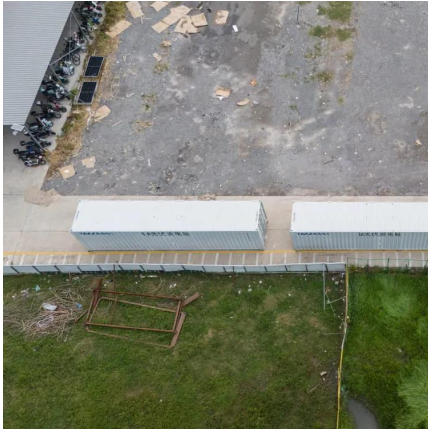

What makes a good inverter?

The durable aluminum housing protects the inverter from drops and bumps. [Material]: Large and durable aluminum alloy shell provides advanced anti-drop and anti-collision protection. Smart cooling fans help reduce heat and prevent shortages. Some of these items ship sooner than the others.
