

Iraq rooftop solar photovoltaic panels

Overview

Will totalenergies build a solar power plant in Iraq?

French energy major TotalEnergies will build a 1-gigawatt solar power plant in Iraq as part of a cluster of contracts it was awarded in 2021 for an integrated project that entails a total investment of \$27 billion over 30 years.

What is Iraq's first utility-scale solar power project?

Utility-scale solar power project The solar power plant will be Iraq's first utility-scale solar power project. While the country has several other solar plans in the pipeline, the TotalEnergies project is the first to proceed to the implementation phase.

How much solar power will Iraq have?

Some 7.5 gigawatts of the planned solar capacity are to come from utility-scale solar plants, and Iraq has reached agreements with developers – at varying stages – for projects that will add 4.5 gigawatts of the total. So far, only 2.3 gigawatts have been approved and are ready to move to the construction phase, with the rest still pending.

How much solar energy does Iraq have in 2023?

However, Iraq has a long way to go before it achieves its target. According to the latest statistics by the International Renewable Energy Agency, it had just 1,599 megawatts of renewable energy capacity at the end of 2023. Unleashing Iraq's solar potential.

How reliable is Iraq's electricity grid?

Iraq's electrical power supply grid faces significant reliability challenges due to a combination of infrastructure damage, high loss rates, and frequent power outages. 456 Infrastructure Condition: The grid has suffered extensive damage from decades of conflict, resulting in inadequate transmission and distribution systems.

How much solar capacity will Iraq have by 2030?

Iraq's solar plans announced in November 2021 call for the addition of 12 gigawatts of solar capacity by 2030. Some 7.5 gigawatts of the planned solar capacity are to come from utility-scale solar plants, and Iraq has reached agreements with developers – at varying stages – for projects that will add 4.5 gigawatts of the total.
