

# Is it necessary to install an outdoor power supply in Madagascar

#### **Overview**

Do I need a power adapter in Madagascar?

The standard voltage in Madagascar is 220V, and the frequency is 50Hz. Devices from countries with different voltage standards, like the United States (120V), may require a voltage converter in addition to a plug adapter. Do You Need a Power Adapter in Madagascar?

Whether you'll need a power adapter depends on the type of plug your devices use.

What type of plugs does Madagascar use?

Madagascar uses power outlets and plugs of types C & E. Take a look at the pictures below to see what these plugs and power sockets look like: Doesn't look familiar?

Do the outlets look different in your country?

You'll need a power plug adapter. Type C - The standard European plug.

Do I need a voltage converter in Madagascar?

Since Madagascar uses Type C and E outlets, you'll need a Type A/B to Type C/E adapter. Additionally, as the voltage in North America is different, you may also need a voltage converter for devices that are not dual-voltage. Ensure your devices are ready as you explore the vibrant streets of Antananarivo or the beautiful beaches of Nosy Be.

Do Europeans need a travel adapter in Madagascar?

Europeans do not need a travel adapter or transformer when traveling to Madagascar. Most device plugs will work with the outlet types in Madagascar. Also, the voltage in Madagascar is the same as in Europe. What Outlet does Madagascar Use?

Type C plug sockets have two round pins and no grounding pin.

Can I use a charger in Madagascar?

Chargers for iPhones, Android phones and other smartphones or cell phones are usually dual voltage, so you can use them all over the world. However, it is possible you'll need an adapter to plug the charger into a Madagascar outlet. Madagascar uses electrical outlets and power plugs of types C & E (see images).

What type of electrical outlet does Madagascar use?

Madagascar primarily uses Type C and Type E electrical outlets. These types are common in many European and African countries. Also known as the standard "Euro" plug, Type C outlets have two round pins. Has two round pins and a hole for the socket's male earthing pin. The standard voltage in Madagascar is 220V, and the frequency is 50Hz.
