

Is it safe to carry a portable power bank

Overview

Yes, you can bring portable chargers and power banks in your carry-on. They must have lithium ion batteries under 100 watt hours (Wh), or about 26,800mAh. Do not pack these in checked luggage. Plug-in phone chargers without batteries can go in either carry-on or checked bags. Are portable power banks allowed on a plane?

The agency has issued a summer reminder about portable power banks — those pocket-size lithium-ion battery packs that keep phones and tablets alive on long flights. The bottom line: they are allowed only in carry-on luggage, never in checked bags. TSA's rule is explicit:.

Can a power bank be placed in a carry-on bag?

Chargers must be placed in carry-on bags, not checked luggage. Portable power banks must not exceed 100 watt-hours. Larger power banks between 100 and 160 watt-hours require airline approval. Chargers do not need to be removed from carry-on bags during screening. Limitations may vary by airlines or international destinations.

Are power banks safe?

Power banks are treated the same way by most airlines because the rules come from safety bodies like IATA (International Air Transport Association) and the FAA (Federal Aviation Administration). The good news is that the important points are pretty straightforward. You must keep power banks in your carry-on cabin bag.
