

Japan Communications Rural 5G Base Station

Overview

What is 5G Japan?

5G JAPAN will promote infrastructure sharing based on the mutual use of base station assets held by SoftBank and KDDI to accelerate the rollout of 5G networks in rural Japan, as well as conduct construction design and construction management work for 5G base stations. "SoftBank and KDDI will rapidly construct 5G networks that serve all industries.

What 5G frequency does a Japanese telecommunications station use?

The station uses the 5G frequency defined by the 3GPP. In FY2021, the Japanese project cooperated with a Thai telecommunications carrier in developing a Local 5G network using O-RAN 5G equipment and conducting demonstration tests for Local 5G applications.

How many 5G base stations did SoftBank and KDDI build?

Through 5G JAPAN, SoftBank and KDDI have jointly built out over 5G 38,000 base stations each, resulting in capital expenditure cost reductions of 45.0 billion yen for each company *2.

How much will Japan spend on 5G?

In the coming years, the four Japanese carriers are expected to spend more than \$14 billion combined in capital expenditures, including investments in base stations, servers and fiber optics, to build out their 5G networks.

Can a local 5G network be used in other regions?

A local 5G network in one region is invulnerable to communication breakdowns or disasters in other regions. ■ Local 5G networks based on radio station license can be used more stably than Wi-Fi networks. ■ Local 5G was partially institutionalized in December 2019 (28.2-28.3 GHz).

Where should 5G base stations be located?

In order for 5G services to be rolled out nationwide going forward, base stations will need to be established in other regions such as the Kansai area and underground.

Japan Communications Rural 5G Base Station

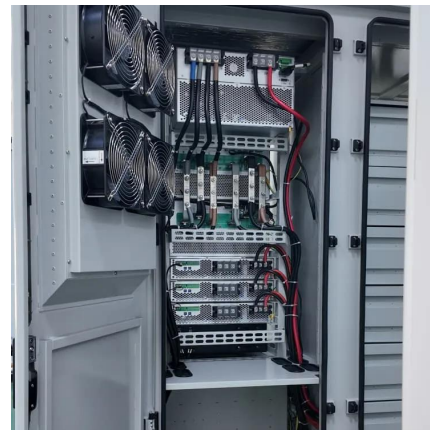

Japan's first proof of concept of 5G base station sharing in a ...

In this PoC, Osaka Metro and Sumitomo Corporation will be installing 5G base stations in the railway tunnel between Namba Station and Shinsaibashi Station on the Midosuji ...

5G regulation and law in Japan , CMS Expert Guides

KDDI and SoftBank agreed on 3 July 2019 to jointly promote the early development of 5G networks in rural areas through the sharing of base station assets. They decided to ...

5G Network , NTT Technical Review

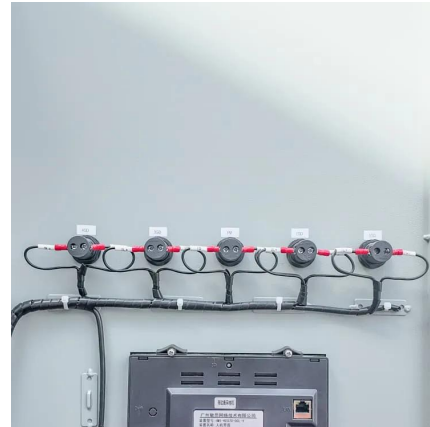

Abstract NTT DOCOMO launched its fifth-generation mobile communications system (5G) commercial service in March 2020 achieving early provision and stable quality by making ...

Top 5G Base Station gNodeB Manufacturers & Vendors

Explore the leading manufacturers of 5G gNodeB base stations, including Nokia, Ericsson, Huawei,

Samsung, and ZTE, and their contributions to the telecom industry.

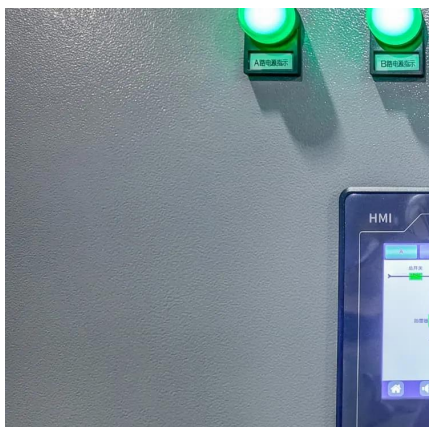

NEC contributes to 5G test by NTT Communications, ...

NEC Corporation (NEC; TSE: 6701) today announced that it contributed to a high-definition video transmission test utilizing 5G to a high ...

[Japan's KDDI and SoftBank expand 5G network ...](#)

This week the duo outlined plans to jointly build out a total of 100,000 base stations each by the fiscal year 2030 (FY2030, the year ending ...

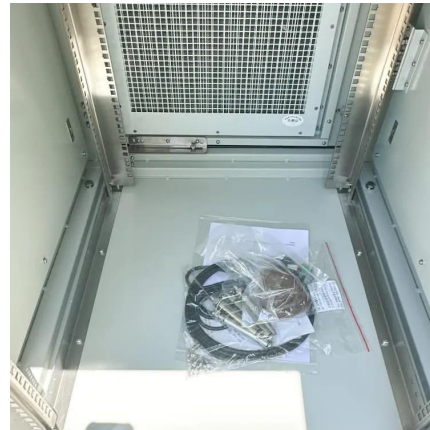

JTower and NTT Docomo Implement Glass Antennas for 5G

In partnership with AGC Corporation and with technical cooperation from NTT Docomo, JTower has developed a glass antenna that turns a window into a base station for ...

Rakuten Mobile Partners with Fujitsu to Accelerate 5G ...

Rakuten Mobile, Japan's newest and most modern mobile network, today announced it will begin deploying base stations utilizing radio units (RU) ...

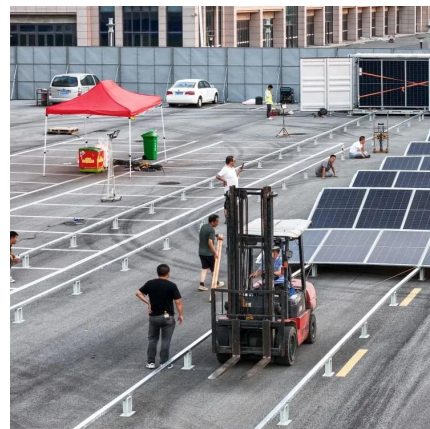

"Breakthrough" new 5G satellite technology demonstrated in Japan

This signal was then forwarded from the satellite to a ground station in JSAT, Japan, which connected to a 5G base station and 5G core network emulator. This, says the ...

Where does Japan stand in deploying 5G?

5G JAPAN will promote infrastructure sharing based on the mutual use of base station assets held by SoftBank and KDDI to accelerate the rollout ...

Ericsson, KDDI deploy underground 5G base stations in Japan

The innovative Ericsson solution enables 5G base station antennas to be installed underground, saving space and facilitating the use of existing assets, such as optical fiber and ...

5G base stations to proliferate widely

A China Mobile employee checks a 5G base station in Xiangyang, Hubei province. [Photo by Yang Tao/For China Daily] Plan is to establish high-speed, smart, green, safe and digital ...

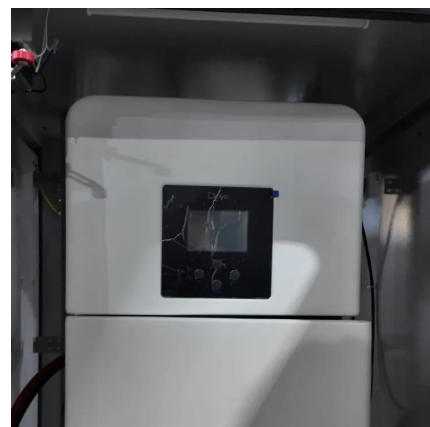

KDDI, SoftBank to jointly deploy 5G infrastructure in rural Japan

Japanese operators KDDI and SoftBank have reached an agreement for the shared use of their base station assets to jointly promote the rapid deployment of 5G networks in Japan's rural ...

Japan on Infrastructure Sharing Mission, Driven by 5G

To accelerate the build-out of 5G networks in rural areas, KDDI and SoftBank will explore options with a view to establishing a joint construction ...

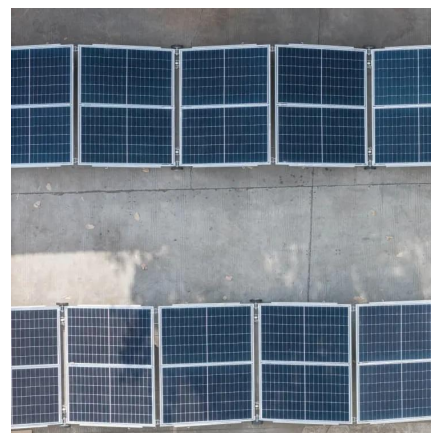

Japan Telecom Market Size, Share, Growth, Trends & Forecast

In January 2024, Japan's telecom sector planned to increase capital expenditure to install more 5G base stations nationwide. The initiative accelerates the 5G rollout, ensuring broader ...

Japan's KDDI and SoftBank expand 5G network development plans

This week the duo outlined plans to jointly build out a total of 100,000 base stations each by the fiscal year 2030 (FY2030, the year ending March 31, 2031). According to ...

[Where does Japan stand in deploying 5G?](#)

5G JAPAN will promote infrastructure sharing based on the mutual use of base station assets held by SoftBank and KDDI to accelerate the rollout of 5G networks in rural ...

Rakuten Mobile, Fujitsu partner to boost 5G expansion

Rakuten Mobile said it will continue to rapidly deploy 5G Sub6 base stations and expand its coverage area across Japan.

Japan's first proof of concept of 5G base station ...

In this PoC, Osaka Metro and Sumitomo Corporation will be installing 5G base stations in the railway tunnel between Namba Station and ...

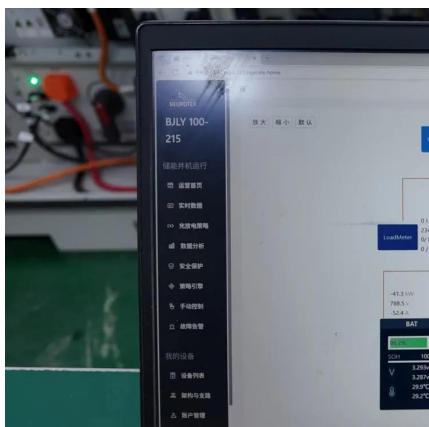

Japan's 5G Networks

All four plans were approved based on certain conditions, including: 1) focusing on the needs of both urban and rural areas; 2) maintaining appropriate and sufficient optical fibers ...

5G regulation and law in Japan , CMS Expert Guides

KDDI and SoftBank agreed on 3 July 2019 to jointly promote the early development of 5G networks in rural areas through the sharing of base ...

Optimizing the ultra-dense 5G base stations in urban outdoor ...

The developed model can facilitate the rollout of 5G technology. Due to the high propagation loss and blockage-sensitive characteristics of millimeter waves (mmWaves), ...

KDDI, SoftBank to jointly deploy 5G infrastructure in rural Japan

To accelerate the deployment of 5G networks in rural areas, KDDI and SoftBank said they will explore options with a view to establishing a joint construction management company that ...

PowerPoint Template

(1) 5G Base Station In the case of 2G, 3G and 4G, base stations can cover a range of several kilometers to tens of kilometers due to the use of low frequency bands, while 5G base stations ...

Sumitomo to Spearhead Shared Mobile Base Stations for Japan's ...

Anticipating a shift toward shared stations in rural areas, where user density is lower, Sumitomo envisions significant growth in the joint-use base station market, addressing ...

[This Japanese Aircraft Became a 5G Base Station](#)

Researchers in Japan used a Cessna aircraft to simulate a high-altitude platform station (HAPS) for 5G cellular backhaul links.

SoftBank Corp. and KDDI Corporation Expand Scope of

Through infrastructure sharing and the mutual utilization of base station assets owned by both companies, SoftBank and KDDI have been collaborating to accelerate the ...

Japan's Efforts to Promote the Prevalence of Local 5G

Toward the outdoor use of the 4.7 GHz band in a rural environment, the project assessed the performance of Local 5G systems against shielding materials and considered the joint use of ...
