

# **Kiribati Communications Green Base Station Contracting**

## Overview

---

Does Kiribati need a new transportation system?

With the country heavily reliant on fishing and agriculture, the Kiribati government has prioritised projects aimed at upgrading its infrastructure and energy systems to support sustainable economic development. One of the most urgent needs in Kiribati is the modernisation of its transportation infrastructure.

What can Australian construction companies do for Kiribati?

For instance, the Betio Port, located in South Tarawa, is undergoing significant upgrades aimed at enhancing the nation's trade connectivity. This project offers Australian construction companies the opportunity to provide expertise and materials, particularly as Kiribati seeks partners for port modernisation.

How is Kiribati developing?

Another significant area for development is Kiribati's energy infrastructure. With a high reliance on diesel fuel for electricity, the country is looking to shift toward renewable energy sources as part of its broader efforts to combat climate change and ensure energy security.

What is BNL doing in Kiribati?

BNL is committed to implementing submarine cable networks, expanding Fibre-to-the-Premises (FTTP) connectivity in South Tarawa, and providing passive infrastructure to extend service for all Kiribati residents.

What is Kiribati Port Authority (KPA)?

The Kiribati Port Authority (KPA) oversees the operations of the country's two main ports of entry: Betio Port on Tarawa Island and Kiritimati Port on Kiritimati Island. KPA's core responsibility is to ensure the secure and efficient transit of goods and passengers from both foreign and local vessels while managing border.

Why is Kiribati launching a life raft service station?

Kiribati's maritime workforce. To enhance safety standards, KNSL plans to establish a life raft service station, reducing costs and ensuring compliance with international safety regulations. A key challenge for Landing Craft MARIN MAINIKU is timely cargo lo
