

# **Laos foldable photovoltaic panel manufacturer**

## Overview

---

Does Laos have a solar sector?

The news is also a positive development for the Laos solar sector. Last year, the country began construction on its first large-scale solar farm, a 50MW project in the south-east province of Attapeu, and the government has already made plans to expand its solar sector further.

Why is SolarSpace expanding its manufacturing capacity in Laos?

By expanding its manufacturing capacity in Laos, SolarSpace aims to meet the growing global demand for PV modules across various technology platforms. This development also holds promise for the burgeoning solar sector in Laos.

Is Laos a viable destination for solar investment?

While the destination of SolarSpace's Laos-made modules remains unspecified, the establishment of a major manufacturing facility in the country marks a pivotal step in showcasing Laos as a viable destination for substantial solar investments, underlining its potential as a significant player in the global solar arena.
