

# **Lithium battery life for outdoor power supply in Thailand**

## Overview

---

Why is Thailand a key player in the lithium-ion battery market?

As the global shift toward clean energy accelerates, Thailand is emerging as a key player in the lithium-ion battery market, driven by its strategic position in Southeast Asia's electric vehicle (EV) and renewable energy boom.

Why is the Thailand lithium ion battery market growing?

The Thailand Lithium Ion Battery market has experienced rapid expansion, primarily attributed to the growing demand for portable electronics, electric vehicles, and renewable energy storage solutions.

Who makes the best lithium-ion batteries in Thailand?

In the Thailand lithium-ion battery market, several leading manufacturers have gained prominence. Panasonic Corporation is a notable player, renowned for its high-quality lithium-ion batteries used in various applications, from consumer electronics to electric vehicles (EVs).

How did the Thai lithium battery market perform in 2021?

In 2021, the Thai lithium battery market increased by 12% to \$X, rising for the second consecutive year after two years of decline. Overall, consumption, however, faced a abrupt decrease. Over the period under review, the market attained the peak level at \$X in 2012; however, from 2013 to 2021, consumption remained at a lower figure.

Which countries import lithium batteries to Thailand?

In value terms, China (\$X), Indonesia (\$X) and Japan (\$X) appeared to be the largest lithium battery suppliers to Thailand, together comprising 78% of total imports. These countries were followed by Israel, the United States, the Czech Republic and France, which together accounted for a further 18%.

Why are lithium-ion batteries so popular?

The demand for lithium-ion batteries has surged in recent years, driven by the rapid growth of electric vehicles (EVs), renewable energy storage systems, and portable electronic devices.
