

Luxembourg Communications Green Base Station Project

Overview

Where can I host the Luxembourg control center?

LuxConnect: Hosting the Luxembourg control center Following a rigorous selection process, LuxConnect's Bettembourg site has been chosen to host the primary functions of the Luxembourg control center. This selection highlights several key advantages offered by LuxConnect:.

Why did LuxConnect choose Bettembourg?

Following a rigorous selection process, LuxConnect's Bettembourg site has been chosen to host the primary functions of the Luxembourg control center. This selection highlights several key advantages offered by LuxConnect: Pre-built infrastructure: The second phase of the DC1.3 facility in Bettembourg accelerates the project timeline.

Why was LuxConnect selected?

Paul Konsbruck, CEO, commented "We are incredibly proud to have been selected for this pivotal project. LuxConnect's recognized expertise in managing high-security and high-connectivity infrastructures played a crucial role in our selection.
