

# **Nissan Mobile Outdoor Power Supply**

## Overview

---

Can a Nissan Leaf be used for disaster relief?

Nissan's Leaf electric car has been modified to serve as a mobile power supply on wheels for disaster relief. Nissan has been an early adopter of vehicle-to-grid technology for electric vehicles with the Leaf.

Can a Nissan Leaf be used as an emergency response vehicle?

The Nissan Leaf has potential for grid services, but Nissan first used it to provide backup power in case of natural disasters. They have now modified a Leaf to turn it into an emergency response vehicle concept to supply power as part of disaster relief efforts.

Can you go electric with a Nissan Leaf?

There are many options available for those looking to “go electric.” If you’re like many who have purchased a Nissan Leaf, for instance, then you can use the standard level 1 charger that came with the car via a home outlet.

How much power does a Nissan Leaf charge?

Even a basic level 2 setup can increase that to 6.6kW, and many can go even higher. A charger power output of 1.4kW means that on your Nissan Leaf you’ll only be adding around 3-4 miles per hour of charging; 5 if you’re lucky.

Do all Nissan Leaf electric cars have bidirectional charging?

All Nissan Leaf electric cars are equipped with bidirectional charging capacity. Some devices, like the Wallbox Quasar, are becoming available for owners to take advantage of this feature.
