

# No power base station solution

## Overview

---

Place handset in the base (not the charge station) Press "HOLD" for 4 seconds, then press # on handset. This should appear on the handset display. The handset shows "registering. please wait." you hear confirmation when complete. Was this answer helpful?

Thanks so much for supplying the missing piece!What should I do if a base unit does not connect?

When "No link to base. Place on cradle and try again." is displayed during a power failure, place a handset on the base unit to supply power to the base unit. Extend the handset antenna fully. Raise the base unit antennas. No link. Re-connect base AC adaptor.

Why is my base unit not working?

Main Unit no power. Confirm the base unit's AC adaptor is connected to the unit and the power outlet correctly. The handset has lost communication with the base unit. Move closer to the base unit and try again. Unplug the base unit's AC adaptor to reset the unit. Reconnect the adaptor and try again.

Why does my phone keep coming up base no power?

The handset may have become deregistered from the base station. To fix this, place the problem handset onto the main base station. It should then automatically register. Let me know if that works?

I did that already and it still comes up base no power.

Why is my VTech phone out of range no power at base?

Except for distance-related issues, the "VTech phone out of range no power at base" message could also mean that the base is no longer receiving power. The VTech base uses a standard 12/24V charger to receive power from a nearby outlet and charge your handset. 2.1 How to Know if the VTech Base is Charging?

How do I fix a cradle not connecting to a base unit?

Reconnect the adaptor and try again. When “No link to base. Place on cradle and try again.” is displayed during a power failure, place a handset on the base unit to supply power to the base unit. Extend the handset antenna fully.

How do I Reset my Phone if a base unit is not working?

Contact your phone service provider for the required pause time. Confirm the base unit's AC adaptor is connected to the unit and the power outlet correctly. The handset has lost communication with the base unit. Move closer to the base unit and try again. Unplug the base unit's AC adaptor to reset the unit. Reconnect the adaptor and try again.
