

Nordic communication base station battery cabinet manufacturer

Overview

Who is Nordic batteries?

At Nordic Batteries we assemble and manufacture customized battery- and energy storage solutions to drive your business forward. Based on our market and technological expertise we deliver solutions powering the green shift for key industries. High energy battery module produced in Norway from norwegian battery cells.

What makes Nordic batteries a sustainable brand?

Nordic Batteries also emphasizes sustainability in their production methods, using renewable energy sources throughout their manufacturing processes. Their battery designs consider the complete lifecycle, including potential second-life applications and eventual recycling, supporting circular economy principles.

What products does Nordic batteries offer?

Nordic Batteries' technology portfolio centers on two main product lines: ePOWER and eENERGY modules. The ePOWER series delivers high-power output for demanding industrial applications, while the eENERGY modules provide extended duration energy storage capabilities.

Who invested in Nordic batteries?

Nordic Batteries has received substantial investment from several Norwegian entities. Kongsberg Innovation, through its Pre-Såkorn Fond, provides significant financial backing and technical support. Vardar AS, an energy group owned by former Buskerud county municipalities, has invested in the company.

When will Nordic batteries start production?

In 2024, Nordic Batteries initiated test production at their Kongsberg facility, marking a significant advancement in their manufacturing capabilities. The

company plans to make final investment decisions for expanded production capacity before summer 2025, with operations scheduled to begin in early 2026.
