

# North America Solar PV Site Distribution

## Overview

---

Find and download resource map images and data for North America, the contiguous United States, Canada, Mexico, and Central America. View an interactive map or download geospatial data on solar photovoltaic supply curves. What is the North America solar photovoltaic (PV) market?

The North America Solar Photovoltaic (PV) Market is segmented by Application (Residential, Commercial, and Utility), Deployment (Ground Mounted and Rooftop Solar), Technology (Crystalline Solar and Thin Film), and Geography (United States, Canada, and Mexico).

Who are the key players in the North America solar photovoltaic (PV) market?

The North America Solar Photovoltaic (PV) Market is fragmented. Some of the key players in this market (in particular order) are Hanwha Q Cells Co., Ltd., Canadian Solar Inc., Jinko Solar, First Solar, Inc., and Trina Solar Limited.

Where can I find solar resource data?

Explore solar resource data via our online geospatial tools and downloadable maps and data sets. Access our tools to explore solar geospatial data for the contiguous United States and several international regions and countries.

What are the benefits of a solar PV supply agreement?

Collaborations between various solar PV manufacturers and local partners will support the market expansion into new geographic regions and segments. Additionally, supply agreements ensure reliable supply chain management, mitigate supply chain risks, and support the scalability of solar PV manufacturing operations.

Why do solar PV manufacturers invest in research and development?

Solar PV manufacturers invest in research and development activities to improve the efficiency, performance, and durability of the solar PV modules and components. Collaborations between various solar PV manufacturers and

local partners will support the market expansion into new geographic regions and segments.

Which solar panel manufacturers have been added?

Several new solar panel manufacturers and related PV factories have been added. These include Ascent Solar, Astronergy, Boway Alloy, Runergy, Caelux, Great Lakes Solex, Nano PV, Prism Solar, Solaria, and Ubiquity Solar. Capacity reductions.
