

# **North Macedonia communication base station wind power list**

## Overview

---

What are the power stations in North Macedonia?

This page article all power stations in North Macedonia . / / 41.40500; 21.93639 ( Tikveš Hydroelectric Power Station) ?

/ / 41.88028; 21.19167 ( Kozjak Hydro Power Plant) / / 41.49333; 20.50306 ( Spilje Hydro Power Plant).

Does North Macedonia have a wind park?

The WBIF has successfully piloted the first renewables scheme in North Macedonia. The first phase of the wind park was completed in 2014 and currently generates 100 GWh per year, providing renewable energy for more than 16,000 households in the Bogdanci region.

Where should the first wind farm be located in North Macedonia?

The WBIF-financed feasibility study, including a comprehensive environmental and social impact assessment, identified Bogdanci as the ideal location for the first wind farm in North Macedonia.

What's happening in North Macedonia's energy sector?

North Macedonia's energy sector remains in a transition stage characterised by limited private sector participation, insufficient and aging infrastructure, high reliance on fossil fuels – especially coal and lignite, low energy efficiency, often low energy prices and fragmented markets with limited cross-border trade.
