

Norway s 37 23kWh lithium battery pack

Overview

What is Nordic batteries doing with Morrow batteries & eldrift?

Nordic Batteries announces it is entering into a strategic partnership with Morrow Batteries and Eldrift to develop complete battery packs for mobile and stationary battery energy storage solutions (BESS). The overall project and product pipeline amounts to 7 GWh until 2030.

Are batteries a potential green industry in Norway?

McKinsey & Co. has identified batteries as one of Norway's principal potential green industries in the future. According to the consultancy, a rapid and broad strengthening of all parts of the battery value chain is needed to satisfy the global battery shortage.

Who is Nordic batteries?

Nordic Batteries is a company that assemble and custom lithium battery and energy storage solutions. With market and technical expertise, it provides solutions that drive the green transition in key industries such as marine and demanding industrial applications.

Does Norway have a battery market?

Today Norway has not one, but two huge battery markets. "There are two market drivers for batteries: EVs and stationary energy storage. Energy storage is coming on strong now. It's the key to turning intermittent wind and solar into a stable energy source," explains Pål Runde, Head of Battery Norway.

How big is Norway's battery market?

batteries for stationary energy storage - a market expected to reach EUR 57 billion by 2030. Now, a more mature Norwegian battery industry has greater potential to accelerate the renewable energy transition in Europe. Today Norway has not one, but two huge battery markets.

Who makes a battery pack in Norway?

ing nation with global presence for more than 150 years. Norway currently produces battery packs and hybrid systems for maritime applications. Leading companies in this field are Corvus, Siemens Energi and Kongsberg. Green shipping and the development of specialised battery solutions

Norway s 37 23kWh lithium battery pack
