

Outdoor power supply replaced with large single unit

Overview

How long does a power supply last?

Our kits are capable of providing power even in extreme weather conditions, and are completely immune to brown-outs and power failures. Also, they are designed to provide low-voltage power for 8 hours or 14 hours a night at the designated maximum wattage, with up to 3 days of battery back-up.

Can you use a 12V power supply for outdoor lighting?

The LED board was built specifically for the provided 12V Power Supply, and the photocell switch makes it so you can set and forget your outdoor lighting fixture. This LED kit is perfect for replacing cheaply built light sources in high-end fixtures or for retrofitting legacy lighting fixtures using incandescent or halogen bulbs.

Does Philips Hue have a power supply replacement program?

To ensure that you feel safe when using Philips Hue products, we're launching a replacement program for those with affected PSUs. To avoid any risks, we advise consumers in case of product failure to first switch off the power before touching the power supply unit. Is my power supply unit affected?

.

What's new in the 2023 power supply?

2023 Power Supply Update: The Hatch LV12-12N-UNV-Y Power Supply has been replaced with the Mean Well APV-8-12 for this kit. Our LED retrofit kit is a cost-effective, long-term solution for exterior lighting fixtures. The 6 Watt, high-efficacy LED kit can replace a 100-watt incandescent source while significantly reducing your home's energy costs.

Which power supply units are affected by the code 1835 & 2047?

For example, a power supply unit with the code 1835 is affected, but a power

supply unit with the code 2047 is not. This means that more power supply units are affected than was assumed a few years ago. These were not only supplied with the outdoor light strip, but also with Lily spots or Calla lights, for example.

What happens if my power supply unit is affected?

This means that more power supply units are affected than was assumed a few years ago. These were not only supplied with the outdoor light strip, but also with Lily spots or Calla lights, for example. If your power supply unit is affected, this is not a problem.
