

Outdoor power supply with DC fast charging

Overview

Can I recharge my power station with an AC adaptor?

You can recharge your power station with an AC adaptor when at home, driving the car outlet during a road trip or simply use a Doosl power station. Portable handle makes it easy to carry around for outdoor activities, particularly convenient to carry. ?

Excellent Safety BMS?

.

How many watts can a DC battery power a car?

Pure DC power delivers up to 300W total output, with a maximum of 140W available from a single USB-C port (other ports have different output limits, including the 12V car outlet*—see specs for details). That's enough to power 90% of essential outdoor gear like lights, cameras, tablets, projectors, speakers, electric coolers, and more.

How much power do I need for camping?

Power is never stuck at camp or in your vehicle. Take TRAIL wherever adventure leads - even to the most remote trails. Up to 300W total DC output powers up 90% camping essentials. Direct current delivers maximum efficiency for your outdoor needs.

What PD Charger do I Need?

Use any USB-C PD charger with 18W or higher output. For full-speed charging, two 140W (280W total) charging ports are required. This product has sustainability features recognized by trusted certifications. 1 Lithium Metal batteries required.

Does doosl power station have a battery management system?

Doosl power station is equipped with the Excellent Battery Management System (BMS), protect devices through temperature control, overvoltage protection, overcurrent protection, and short circuit protection functions. And detects short circuits and overloads when performing incorrect operations. ?

Outdoor Backup Power?

.

How many power output ports does AC have?

It provides 13 power output ports to charge multiple devices at the same time, such as laptop, phone, drone, car fridge and cameras, etc. ?

AC Fast Charge& Easy to Carry?
