

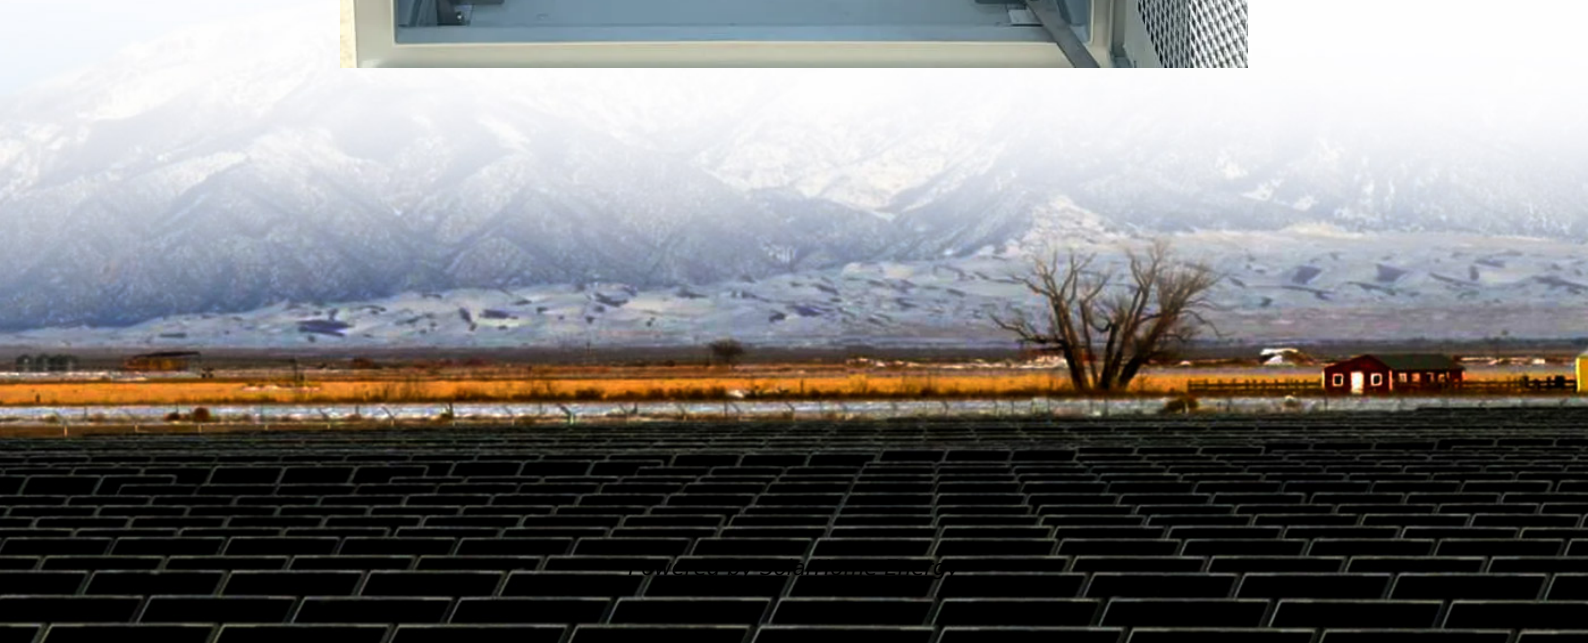

# Photovoltaic panels on Polish rooftops

## Overview

---

Is Poland a leader in photovoltaics in Europe?

Poland is working its way to the top of the European ranks in photovoltaics. In 2020, 2635 megawatts (MW) of solar power output was installed in Poland – more than thrice as much as in 2019 (823MW). This put Poland's PV market in fourth place in Europe, behind Spain (2,7 GW), the Netherlands (2,8 GW) and Germany (4,8 GW).

How much solar power is installed in Poland in 2020?

In 2020, 2635 megawatts (MW) of solar power output was installed in Poland – more than thrice as much as in 2019 (823MW). This put Poland's PV market in fourth place in Europe, behind Spain (2,7 GW), the Netherlands (2,8 GW) and Germany (4,8 GW). The cumulative installed PV power was 3935 GW. And all signs point to further strong growth.

How many small-scale PV systems are there in Poland?

According to the Polish Society for Photovoltaics (PV Poland), the number of registered small-scale systems (below 50 kW) with an average capacity of 6.5 kilowatts (kW) grew from 155,000 (992 MW) at the end of 2019 to 457,400 (3 GW) at the end of 2020. These small-scale systems accounts for 75% of total PV power installed in Poland.

What is the Polish solar boom?

The Polish solar boom is happening at every level – from smaller, privately-owned rooftop PV systems and commercial rooftop systems to large free-standing installations.

How does Polish government support a PV system?

The Polish government introduced strong regulatory support. There are subsidies for PV systems for on-site consumption as well as for utility-scale facilities. One example is the expansion of “balancing” programs, which is

what the Polish call net metering, to small and medium enterprises in order to support prosumers.

What drives the photovoltaic market?

In addition to the sharp drop in the cost of photovoltaics and growing environmental consciousness, the market is being driven by a whole raft of incentive programs (e.g. My Current - €230 million, Clean Air, Thermomodernization, etc.).
