

# Portable power supply foreign trade

## Overview

---

Are US import tariffs on China-manufactured power conversion components rising?

Please try again later. The highlight of the webinar was a breakdown of how U.S. import tariffs on China-manufactured power conversion components have surged to 170%. Many businesses are still under the impression that the rate is 145%, but Stephen walked attendees through the math:.

Does integrated power designs have a tariff?

Only U.S.-made brands like Integrated Power Designs (IPD). Everything else has some level of tariff. Are manufacturers moving production?

.

Does TRC offer a free power supply risk assessment?

TRC is offering a Free Power Supply Risk Assessment to help you identify non-China alternatives. TRC's website now shows known country of origin data on product pages and category filters. TRC uses consistent and transparent formulas to pass through tariff costs based on actual batch-level import data.
