

Recently on the photovoltaic inverter company

Overview

How pvbl ranked the top 20 global photovoltaic inverter brands in 2023?

On the first day of the conference, PVBL's annual ranking of the Top 20 Global Photovoltaic Inverter Brands was announced. Preferential policies promoted the inverter market growth in 2023. Most of the major inverter companies won a large amount of orders and expanded their capacity with high shipment volume.

How has the inverter industry changed over the years?

After years of competition, the inverter industry has become quite stable. The overall ranking of the list has not changed much, as most of the leading inverter manufacturers have developed their respective core products, including central inverters, string inverters, micro inverters and energy storage, in a balanced manner.

Which inverter companies are leading the market growth in 2023?

Preferential policies promoted the inverter market growth in 2023. Most of the major inverter companies won a large amount of orders and expanded their capacity with high shipment volume. Sungrow and Huawei tied for first place in the list with outstanding performance.

What is the global demand for PV inverters in 2022?

The global PV demand of 201 gigawatt alternating current (GWac) in 2022 contributed to 48% growth year-over-year for PV inverters. In terms of inverter shipments, strong growth in Europe, Asia Pacific, and the United States where government support bolstered to meet clean energy goals led to a total of 333 GWac of global shipments in 2022.

What are the best solar inverter exhibitions in the world?

Here are the most prominent global exhibitions for solar inverters: Intersolar Europe (Munich, Germany): The world's leading solar exhibition, featuring the

latest inverter technologies and attracting thousands of professionals annually.

Which PV inverter vendors shipments grew the most in 2022?

The top five vendors – Huawei, Sungrow, Ginlong Solis, Growatt, and GoodWe – shipped more than 200 GWac and accounted for 71% of total global PV inverter shipments in 2022, growing 8% from 2021. Huawei's shipments saw a significant increase of 83% in 2022 compared to 2021, while Sungrow's shipments expanded 56% in the same period.
