

Replace photovoltaic panels

Overview

Should I remove solar panels to replace roof sections?

If you need to remove solar panels to replace roof sections, having a solar expert do the work can make the project go smoother. Additionally, roofers are rarely trained to install home solar panels and maintain solar power systems.

Should I move or reinstall my solar panels?

Working with experts is crucial when moving or temporarily removing your solar panels. Improper removal or reinstallation can lead to performance issues or damage. At Suntrek, we ensure the highest standards are met throughout the solar panel removal service process.

Is solar panel removal necessary?

More households and businesses are installing solar panels to harness solar energy since these green energy systems minimize our carbon footprint. However, there may come a time when solar panel removal becomes necessary.

Do solar panels need to be reinstalled?

Disposal & Recycling: Solar panels have toxic substances—always recycle or dispose of them responsibly. Financial Considerations: Consider factors in costs for solar panel removal, recycling, and possible reinstallation.

What should you consider before removing solar panels?

Things to consider before the solar panel removal process: Safety Precautions: Disconnect solar panels before uninstall. Use protective gear: Gloves, hard hats, and safety glasses. Correct Equipment: Ladders, harnesses, and scaffolds lead to safe removal.

Can solar panels be reinstalled on a new roof?

Relocation of Solar Panels: If you are remodeling your home or building an addition, you might need to relocate your solar system to a new roof area. This ensures your system continues to operate efficiently while optimizing exposure to sunlight. Suntrek's team will safely remove and reinstall your solar panels in the most advantageous location.
