

Saint Kitts and Nevis energy storage temperature control equipment

Overview

How much does electricity cost in St Kitts & Nevis?

The electricity rates in the Federation of St. Christopher (St. Kitts) and Nevis are \$0.26 per kilowatt-hour (kWh). This is lower than the Caribbean regional average of \$0.33/kWh.

Does St Kitts and Nevis have a national energy policy?

Yes, St. Kitts and Nevis has a National Energy Policy (NEP). The key provisions of this policy include connecting large-scale independent power providers and many distributed renewable energy systems to the electrical grid. Not all generation is made publically available; this chart provides known and referenceable data.

Who contributed to the preparation of the ERC in St Kitts & Nevis?

KITTS AND NEVIS. The CCREEE acknowledges the contributions of the Ministry of Public Infrastructure, Energy and Utilities; Domestic Transport, St. Kitts and Nevis, and thanks Denasio Frank, Energy Officer in the Energy Unit of the Ministry, for his supervision of the intern, Vlasean Smithen, who supported the preparation of the ERC.

Does Saint Kitts and Nevis have medical equipment?

Saint Kitts and Nevis has limited doctors and modern medical equipment. In the event of a serious illness or accident emergency, evacuation will be required to provide the adequate level of medical care. The country does not have the equipment to perform CT scans, MRI scans and other specialized diagnostic tests.

What is the Electricity Supply Act of Nevis?

This Act allows for the provision of the supply of electricity on the island of Nevis by a public supplier and details the regulations and process to obtain the supply of electricity. The Ordinance allows for the survey, exploration,

drilling, productions and use of geothermal resources, in which entities may apply for a license.
