

# **Saudi Arabia base station used power supply**

## Overview

---

What is a mobile substation in Saudi Arabia?

Saudi Electricity Company The proposed Mobile Substations (20MVA and 10MVA) are to provide alternative source of supply to customers temporarily, in case of loss of regular supply due to damage/fault occurring to network equipments.

Does Saudi Arabia have a 230/400 volt system?

With more than 70% of the world now using a 230/400 volt distribution system, the government approved plans in August 2010 to move the country to a 230/400 volts system. In Saudi Arabia the demand for electricity is growing faster than in any other country in the region.

Does Saudi Arabia need electricity?

In Saudi Arabia the demand for electricity is growing faster than in any other country in the region. Because of air-conditioning needs, electricity demand in the summer is around 40% higher than in the winter months. Base-load and peak-load demand differ widely between day and night.

Will Saudi Arabia get a third of its electricity from solar?

At the 2012 United Nations Climate Change Conference in Qatar, Saudi Arabia announced its target is to receive a third of its electricity demand from solar power with 41GW of solar capacity, by 2032. At the same time, it was announced that the country intended to invest in seventeen new nuclear reactors over the next 20 years.

Is there a power outage in Saudi Arabia?

As a result voltage fluctuations and power outages are not uncommon – especially over the peak demand summer months. Saudi Arabia is a large country with an area of 2.3 million km<sup>2</sup>. The Saudi Electric Company (SEC) is responsible for generating and distributing electricity in the Kingdom.

How will Elsewedy Electric KSA improve Riyadh's power supply network?

As part of this endeavor, ELSEWEDY ELECTRIC KSA will connect the new Riyadh 110/13.8 kV Substation, which will strengthen Riyadh's power supply network. In addition, the project will offer backup feeding for HP2 and KZM BSPs in Jeddah, ensuring higher resilience and reliability for the region's industrial zones.
