

Solar Powered Container House Manufacturer

Overview

What is a 40' shipping container home with solar panels?

If you're dreaming of a sustainable lifestyle, our 40' Shipping Container Home with Solar Panels is perfect for you. Built from recycled steel, this home is both durable and eco-friendly. With its own solar panels, you can live completely off the grid and reduce your carbon footprint.

Who is custom container living?

Founded by Robert Wagoner in 2015, Custom Container Living is dedicated to delivering exceptional, environmentally conscious homes. From solar power integration to innovative water systems, our homes are designed to help you reduce your reliance on external resources and thrive off the grid.

Are container homes eco-friendly?

Container homes are an eco-friendly alternative to traditional housing. By repurposing shipping containers, they reduce waste and the demand for new building materials. This makes them a sustainable and energy-efficient choice, especially when combined with renewable energy sources like solar panels.

What is a modular container house?

Achieve versatility and efficiency with Modular Container Homes. These customizable, quick-to-assemble homes suit a range of applications, making them perfect for both residential and commercial spaces. Enjoy unmatched portability with Folding Container Houses.

Are container homes durable?

Each container home is crafted from high-quality, durable materials, including steel for the main structure and eco-friendly insulation, ensuring long-lasting performance and comfort. Are your container homes weather-resistant?

Can I customize the design of my container home?

How long does it take to deliver and install a container home?

.

Why should you choose a container home for a sustainable lifestyle?

With its own solar panels, you can live completely off the grid and reduce your carbon footprint. Here are some reasons why this container home should be your choice for a sustainable lifestyle: With our 40' Off Grid Container Home, you can live anywhere without the need for electricity from the grid.
