

# **Solar power prices for home use in Sao Tome and Principe**

## Overview

---

Where can I install solar panels in São Tomé?

São Tomé is an ideal location for solar energy. Solar panels can be installed in existing buildings or in stand alone 20 foot containers with the help of Offgridinstaller, who can supply and fit any size of solar system with high quality lithium ion battery storage which can generate and power year round storage.

Are there any studies on solar power potential in Sao Tome & Principe?

2. Solar PV: As per the publication “Emission Reduction Profile: Sao Tome and Principe”, June 2013” prepared by RISO with the support of ACP-MEA & UNFCCC, there are, to date, “no official studies on the exact solar power potential: therefore, further calculations of the emissions reduction potential can be hazardous”.

How much electricity does Sao Tome & Principe produce a year?

Sao Tome and Principe’s First National Communication submitted to UNFCCC in December 2004 estimated that the hydropower could theoretically provide 247 GWh of electricity per year, 70% of which could be tapped to annually produce 170 GWh. However, electricity generation from hydropower provided only 6 GWh in 2013.

Does Sao Tome and Principe have a national energy policy?

Sao Tome and Principe has not yet developed a National Energy Policy. However, with every change in Government, the incoming Government formulates its development plan with the last one prepared in October 2013 and entitled “Grandes Opções do Plano para 2014” (Major Options of the Plan for 2014).

Are there power plugs in Sao Tome & Principe?

The power plugs in Sao Tome & Principe are the standard European 220V dual-

pin power plugs. Everyone except mainland Europeans will have to bring a power adapter. Power cuts are very normal, so be sure to bring a flashlight. Very few villages outside the capital have electricity.

How much power does EMAE have in Sao Tome & Principe?

EMAE's total installed generation capacity (Table 2) on the islands of Sao Tome and Principe is 22.5 MW, consisting of 20.6 MW from diesel plants and 1.92 MW from hydro plants.

## Solar power prices for home use in Sao Tome and Principe
