

South African inverter wholesale prices

Overview

Solar inverter prices typically range between R10,000 and R80,000 depending on brand and inverter size. In this comprehensive guide, we will demystify solar inverter pricing, equipping you with the necessary insights to make informed decisions. What types of solar inverters are available in South Africa?

In South Africa, there are four primary types of solar inverters available: string inverters, microinverters, power optimizers, and hybrid inverters, some with charge controllers and some without a charge controller. Each type offers specific advantages and disadvantages and is suitable for different solar installations.
