

# **St Kitts and Nevis Energy Storage Power Supply Procurement**

## Overview

---

Does St Kitts and Nevis have a national energy policy?

Yes, St. Kitts and Nevis has a National Energy Policy (NEP). The key provisions of this policy include connecting large-scale independent power providers and many distributed renewable energy systems to the electrical grid. Not all generation is made publically available; this chart provides known and referenceable data.

How much does electricity cost in St Kitts & Nevis?

The electricity rates in the Federation of St. Christopher (St. Kitts) and Nevis are \$0.26 per kilowatt-hour (kWh). This is lower than the Caribbean regional average of \$0.33/kWh.

What is the Electricity Supply Act of Nevis?

This Act allows for the provision of the supply of electricity on the island of Nevis by a public supplier and details the regulations and process to obtain the supply of electricity. The Ordinance allows for the survey, exploration, drilling, productions and use of geothermal resources, in which entities may apply for a license.

What is Nevis Energy Act?

Supports the Energy Policy and provides a framework to promote the integration of renewable energy into the grid. This Act allows for the provision of the supply of electricity on the island of Nevis by a public supplier and details the regulations and process to obtain the supply of electricity.

Who contributed to the preparation of the ERC in St Kitts & Nevis?

KITTS AND NEVIS. The CCREEE acknowledges the contributions of the Ministry of Public Infrastructure, Energy and Utilities; Domestic Transport, St. Kitts and Nevis, and thanks Denasio Frank, Energy Officer in the Energy Unit of the Ministry, for his supervision of the intern, Vlasean Smithen, who supported the

preparation of the ERC.

What is a supply resource plan?

The Plan evaluates supply resource options in response to demand growth on a comprehensive basis and provides an analysis of the options. Supports the Energy Policy and provides a framework to promote the integration of renewable energy into the grid.
