

# **Tajikistan Communications and which 5G base stations have the most**

## Overview

---

Does Tajikistan have a 5G network?

Nevertheless, Tajikistan was one of the first in Central Asia to launch a 5G network. In August 2020, the operator Tcell activated 5G base stations in Dushanbe. A year later, in May 2021, another operator “Zet-mobile” completed testing and today offers full 5G connection services at four points in the capital.

How many 5G operators are there in Tajik?

In August 2020, the operator Tcell activated 5G base stations in Dushanbe. A year later, in May 2021, another operator “Zet-mobile” completed testing and today offers full 5G connection services at four points in the capital. There are five operators on the Tajik mobile market: MegaFon Tajikistan; Tcell; Babilon-T; ZetMobile; and O Mobile.

How fast is Tcell 5G in Tajikistan?

In addition, local news outlet Asia-Plus reported that Tcell has achieved download speeds of nearly 1Gbps, which is ten times faster than the top speed of its 4G network. Although Tcell is not the first operator to launch commercial 5G services in Tajikistan, it was investing in fibre infrastructure to support future 5G growth.

Is Tajik launching 5G in Dushanbe?

Tcell, a Tajik operator, activated its first 5G base stations in the city of Dushanbe, after receiving a license for 3500MHz spectrum in June of last year. “The country’s leading innovative operator, Tcell, presents the most high-speed network of new generation – 5G in Dushanbe,” according to its website.

Is Tcell launching commercial 5G services in Tajikistan?

Although Tcell is not the first operator to launch commercial 5G services in

Tajikistan, it was investing in fibre infrastructure to support future 5G growth. As such, the operator is offering customers the chance to win 5G devices with data allowances via its website despite not confirming commercial 5G tariffs.

Where does Tajikistan rank in telecommunications?

CABAR.asia says Tajikistan ranks third in the region, overtaking Uzbekistan in terms of mobile penetration – 10.14 million SIM cards per 9.64 million population, which is 105.2 percent. In other aspects of the telecommunications sector, Tajikistan, along with Turkmenistan, is often in the last positions in Central Asia and in the world.
