

# Thailand base station communication installation

#### **Overview**

Where in Thailand has electricity and telecommunications infrastructure been installed?

Currently, two pilot villages, Ban Dok Mai Sod and Moko Poke, in Tak province, Thailand's northwest region, have successfully installed electricity and telecommunications infrastructure.

Which MHz band is suitable for small cell deployment in Thailand?

While around 3,200 MHz of mobile spectrum has been assigned in Thailand, the 26 GHz mmWave band – suitable for localised small cell deployment due to its propagation characteristics – accounts for most of this figure.

Is AIS the first 5G service provider in Thailand?

Therefore, as the first 5G service provider in Thailand, AIS has expanded its service coverage to 77 provinces nationwide and is ready to use today. AIS is continuously developing network innovations for corporate customers in response to the problems mentioned above.

How many MHz are assigned in Thailand?

There has been no change in the total frequency assignments in Thailand according to the Frequency allocation plan for IMT for Thailand (2024-2028). As shown in Table 1, only 450 MHz is currently assigned in the mid-band range, compared to an average of 850 MHz in the Asia-Pacific region today.

Which GHz band does Thailand use?

In the 2.6 GHz band, Thailand has assigned IMT spectrum based on the TDD n41 band plan. Thailand's ASEAN neighbours Cambodia, Lao PDR and Malaysia, currently use the hybrid FDD/ TDD configuration (b7/b38) for 4G services in this band.

What is the 'Green Energy Green Network for Thais' project?

The "Green Energy Green Network for THAIs" project aims to deliver solargenerated electricity to communities this year, as well as install solar-powered base stations to create digital network systems in five remote highlands, the companies said.

#### Thailand base station communication installation

### NT and AIS join forces to increase 4G/5G capability ...

These agreements aim to enhance and expand the 4G/5G capabilities of both NT and AIS. In this agreement, AWN, on behalf of AIS, will ...
