

# **Thailand emergency energy storage vehicle equipment manufacturer**

## Overview

---

Is Thailand a good place to export electric truck products?

The electric truck sector is still developing in Thailand and Thailand's battery manufacturers lack advanced technology for upstream production at a cellular level. This presents a great opportunity for exporters of advanced upstream electric vehicle products and energy storage systems.

How can Thailand meet EV truck demand?

Thailand seeks advanced upstream electric vehicle products and energy storage systems to meet surging EV truck demand.

How many Bev electric buses are there in Thailand?

BEV electric buses doubled, from 1,212 units in 2022 to 2,419 units in 2023, and BEV electric truck registrations grew more than tenfold, from 26 units in 2022 to 303 units in 2023. One notable example of the Thai government's efforts is the Port Authority of Thailand's (PAT) aim to achieve the goal of carbon neutrality by 2050.
