## Overview

---

How much does it cost to install a solar panel?

Solar panel installation costs \$10,000 to \$30,000 on average before tax credits or incentives. Traditional solar panels cost less than solar shingles but are more efficient and produce more wattage. \*Including asphalt shingle roof replacement.

How much does it cost to reinstall solar panels?

Reinstall solar panels: After the new roof is in place, the solar company will reinstall the panels and ensure everything is functioning correctly. The cost to remove and reinstall solar panels during a roof replacement typically ranges from \$2,800 to \$4,800 for an average-sized system of 14–16 panels.

Can you install solar panels on a new roof?

Roofing work: After the panels are safely removed, roofing work can proceed as it would on any roof without solar panels. It's important to ensure that the new roof is compatible with solar panel reinstallation. Panel reinstallation: Once the roof work is complete, the solar panels need to be reinstalled.

How much does a solar roof replacement cost?

The complexity of the solar system plays a significant role; larger and more intricate arrays often lead to higher costs for removal and reinstallation. Adding to this complexity is the base cost of the roof replacement itself, which as we mentioned above, averages around \$10,000, but can fluctuate based on various factors.
